a powerful and wide ranging indictment of the treatment of animals by humans and an eloquent plea for animal rights every cow just wants to be happy every chicken just wants to be free every bear dog or mouse experiences sorrow and feels pain as intensely as any of us humans do in a compelling appeal to reason and human kindness matthieu ricard here takes the arguments from his best sellers altruism and happiness to their logical conclusion that compassion toward all beings including our fellow animals is a moral obligation and the direction toward which any enlightened society must aspire he chronicles the appalling sufferings of the animals we eat wear and use for adornment or entertainment and submits every traditional justification for their exploitation to scientific evidence and moral scrutiny what arises is an unambiguous and powerful ethical imperative for treating all of the animals with whom we share this planet with respect and compassion

ten leading private investors share their secrets to maximum profitability in the masters of private equity and venture capital the pioneers of the industry share the investing and management wisdom they have gained by investing in and transforming their portfolio companies based on original interviews conducted by the authors this book is filled with colorful stories on the subjects that most matter to the high level investor such as selecting and working with management pioneering new markets adding value through operational improvements applying private equity principles to non profits and much more

how amazon combined branding and relationship marketing with massive distribution infrastructure to become the ultimate service brand in the digital economy amazon is ubiquitous in our daily lives we stream movies and television on amazon prime video converse with alexa receive messages on our smartphone about the progress of our latest orders in buy now emily west examines amazon s consumer facing services to investigate how amazon as a brand grew so quickly and inserted itself into so many aspects of our lives even as it faded into the background becoming a sort of infrastructure that can be taken for granted amazon promotes the comfort and care of its customers but not its workers to become the ultimate service brand in the digital economy west shows how amazon has cultivated personalized intimate relationships with

consumers that normalize its outsized influence on our selves and our communities she describes the brand's focus on speedy and seamless ecommerce delivery represented in the materiality of the branded brown box the positioning of its book retailing media streaming and smart speakers as services rather than sales and the brand's image control strategies west considers why pushback against amazon's ubiquity and market power has come mainly from among amazon's workers rather than its customers or competitors arguing that amazon's brand logic fragments consumers as a political bloc west's innovative account the first to examine amazon from a critical media studies perspective offers a cautionary cultural study of bigness in today's economy

a killer monkey suburban witchcraft motorcycle jousting a cockroach invasion despite this enticing list of other subjects george a romero is best known for the genre defining 1968 film night of the living dead and subsequent zombie films the non zombie films in his decades long career have gotten varied degrees of critical examination but they remain underexamined compared to the dead flicks this book focuses on romero's other work highlighting lesser known films such as there's always vanilla 1971 and bruiser 2000 as well as more popular films such as martin 1977 and the crazies 1973 it examines how his body of work participates in social critique by delving into issues such as capitalism's pitfalls and excesses domestic and racial power imbalances and our patriarchal culture's expectations of masculinity femininity and sexuality

world history suffers from a paucity of clearly articulated convincing explanations while the rise of postmodernism and challenges to eurocentrism did lead to some important correctives the pendulum has swung too far the other direction with a corresponding danger of throwing the baby out with the bathwater we need careful theoretically informed debates about ways of organizing world history what constitutes a good historical explanation what should guide historians to choose relevant facts which theoretical schools could be made useful and to what ends these questions are especially relevant to the main topic of this book the great divergence between the west and the rest of the world and how this historical rupture is to be explained the book provides extensive critical analyses of some of the key claims in world history analyzing their strengths as well as their major weaknesses too often rooted in insufficient familiarity of historians with theories they discard it also historicizes the field and the debates to partly account for what caused some theories to become more influential and

others to fall into oblivion despite the fact that the more influential frameworks are seriously flawed and some of the more marginalized ideas are more coherent and plausible the book offers insights regarding the theoretical and political relevance of older debates about the transition to capitalism and historical materialism three major schools of thought in world history are critically examined through an in depth theoretical and comparative analysis that has not been undertaken elsewhere the so called california school world systems analysis and marxist theories of history capitalism and the transition from feudalism to capitalism murphy argues that despite some of the more recent criticisms of older approaches to world history the older theories remain indispensable for the writing of world history and for coming to terms with issues of global poverty inequality and eco catastrophe

the thoroughly revised updated 3rd edition of cds 12 years mathematics english general knowledge topic wise solved papers 2007 feb 2018 feb consists of last 12 years both feb and november papers from 2007 paper 1 2018 paper 1 solved papers of elementary mathematics english and general knowledge distributed into 42 topics in all there are 23 question papers from 2007 to 2018 i which have been divided into the above discussed 42 topics practicing these questions aspirants will come to know about the pattern and toughness of the questions asked in the examination all the papers are divided into following sections section i mathematics which is distributed into 25 topics section ii english is divided into 8 topics section iii general knowledge is divided into 9 topics the book contains 6460 milestone mcq s from the above 23 question papers the strength of the book lies in the originality of its question papers and errorless solutions the solution of each and every question is provided in detail step by step so as to provide 100 concept clarity to the students

the global economic crisis has catalysed debates about the merits of capitalism as a system for organizing production distribution and exchange political elites have argued that capitalism is not fundamentally pernicious or crisis prone and can be successfully reformed with the right set of policies conversely many have argued that a wholesale change of attitude towards the status and creation of wealth in contemporary society is required if crises of this kind are to be prevented in the future in capitalism and its alternatives chris rogers provides a critical introduction to theories of capitalism and to the forms of its crises in historical and contemporary contexts as well as reflecting on the

practice of anti capitalism and the ways that economic and social relations are shaped reshaped and resisted crucially the book asks two key questions what alternatives to capitalism exist and by what processes and through what institutions might they be achieved

as tech giants and startups disrupt every market those who master large scale software delivery will define the economic landscape of the 21st century just as the masters of mass production defined the landscape in the 20th unfortunately business and technology leaders are woefully ill equipped to solve the problems posed by digital transformation at the current rate of disruption half of s p 500 companies will be replaced in the next ten years a new approach is needed in project to product value stream network pioneer and technology business leader dr mik kersten introduces the flow framework a new way of seeing measuring and managing software delivery the flow framework will enable your company s evolution from project oriented dinosaur to product centric innovator that thrives in the age of software if you re driving your organization s transformation at any level this is the book for you

new organizational structures a different view encouraging readers to appreciate differing viewpoints on strategic concepts and theories end of chapter cases that capture each chapter's main theories through engaging cases on companies such as adidas and nike lego and uber new recommended reading at the end of each chapter which help to further knowledge including classic texts and advanced reading and author notes providing context connect is mcgraw hill education's learning and teaching environment that improves student performance and outcomes while promoting engagement and comprehension of content new for this edition are interview style videos featuring author alex janes in discussion with business leaders exploring how organizational strategy has developed within companies as diverse as jeep levi strauss novonordisk and a prestigious oil and gas company the videos are provided in full length or in segments with questions aimed at encouraging classroom discussion or self testing this new edition is available with smartbook mcgraw hill education's adaptive digital tool that tests students knowledge of key concepts and pinpoints the topics on which they need to focus study time crafting and executing strategy is also available with both the business strategy game and glo bus the world sleading business strategy simulations

the economist's best books of 2023 forbes top 10 business books of 2023 financial times monthly best business books to read pick in this handbook for disruptors eric schmidt the geek way reveals a new way to get big things done it will change the way you think about work teams projects and culture and give you the insight and tools you need to harness our human superpowers of learning and cooperation what is being geeky it's being a perennially curious person one who's not afraid to tackle hard problems and embrace unconventional solutions mcafee shows how the geeks have created a new culture based around four norms science ownership speed and openness the geek way seems odd at first it's not deferential to experts fond of planning and process afraid of mistakes or obsessed with winning but it explains everything from why montessori babies turn out to be creative tinkerers to how newcomers are disrupting industry after industry and still just getting started when all four norms are in place a culture emerges that is freewheeling fast moving egalitarian evidence driven argumentative and autonomous why does the geek way work so much better mcafee provides an original answer because it taps into humanity's superpower which is our ability to cooperate intensely and learn rapidly by providing insights from the young discipline of cultural evolution mcafee shows that when we come together under the right conditions we quickly figure

out how to build reusable spaceships and self correcting organizations under the wrong conditions though we create bureaucracy chronic delays cultures of silence and the other classic dysfunctions of the industrial era mixing cutting edge science history analysis and stories that show the geek way in action mcafee offers a new way to see the world and empowering tools for seizing the big opportunities of today and tomorrow

cds cds ota 16 years english topic wise solved papers 2007 feb 2022 april consists of last 16 years from 2007 paper 1 2022 paper 1 solved papers of english distributed into 10 topics in all there are 31 question papers from 2007 to 2022 i which have been divided into the above discussed 10 topics practicing these questions aspirants will come to know about the pattern and toughness of the questions asked in the examination the book contains 3640 milestone mcq s from the above 31 question papers the strength of the book lies in the originality of its question papers and errorless solutions the solution of each and every question is provided in detail step by step so as to provide 100 concept clarity to the students

from one of our leading experts on disinformation this inventive biography of the rogue wwii propagandist sefton delmer confronts hard questions about the nature of information war what if you can t fight lies with truth can a propaganda war ever be won in the summer of 1941 hitler ruled europe from the atlantic to the black sea britain was struggling to combat his powerful propaganda machine crowing victory and smearing his enemies as liars and manipulators over his frequent radio speeches blasted out on loudspeakers and into homes british claims that hitler was dangerous had little impact against this wave of disinformation except for the broadcasts of someone called der chef a german who questioned nazi doctrine he had access to high ranking german military secrets and spoke of internal rebellion his listeners included german soldiers and citizens as well as politicians in washington dc who were debating getting into the war and most importantly der chef was a fiction he was a character created by the british propagandist thomas sefton delmer a unique weapon in the war then as author peter pomerantsev seeks to tell delmer s story he is called into a wartime propaganda effort of his own the us response to the invasion of ukraine in flashes forward to the present day pomerantsev weaves in what he s learning from delmer as he seeks to fight against vladimir putin s tyranny and lies this book is the story of delmer and his modern investigator as they each embark on their own quest to manipulate the passions of supporters and enemies and to

turn the tide of an information war an extraordinary history that is informing the present before our eyes

this book examines several distinctive literary figurations of posthuman embodiment as they proliferate across a range of internationally acclaimed contemporary novels clones in kazu o ishiguro's *Never Let Me Go* animal human hybrids in margaret atwood's *Oryx and Crake* toxic bodies in indra sinha's *Animal's People* and cyborgs in jeanette winterson's *The Stone Gods* while these works explore the transformational power of the biotech century they also foreground the key role human capital theory has played in framing human belonging as an aspirational category that is always and structurally just out of reach making contemporary subjects never human enough in these novels the dystopian character of human capital theory is linked to fantasies of apocalyptic release as such these novels help expose how two interconnected genres of futurity the dystopian and the apocalyptic work in tandem to propel each other forward so that fears of global disaster become alibis for dystopian control which in turn becomes the predicate for intensifying catastrophes in analyzing these novels justin omar johnston draws attention to the entanglement of bodies in technological environments economic networks and deteriorating ecological settings

this book addresses a question of importance for both theory and practice why are joint venture agreements preferred over other types of agreements such as concession agreements service contracts and production sharing agreements in the qatari gas industry on a theoretical level the author analyses this decision making process by developing an approach that integrates a micro level analysis more specifically within international oil companies with a macro level analysis that spring from the organisational culture of the qatari gas industry at the micro level the author proposes john dunning's eclectic paradigm as one set of theoretical ideas to explaining one element of the decision making process leading to the preference for joint venture agreements that is that of international oil companies at the macro level the author proposes antony giddens structuration theory as another set of theoretical ideas to explaining another part of this decision making process that is how it is being shaped by the organisational culture of the qatari gas industry on an empirical level the proposed book applies a combination of a micro economic approach such as dunning's eclectic paradigm with a macro sociological approach such as giddens structuration theory by empirical investigation

grounded on a qualitative strategy that focuses on the meaning making which brings together different perspectives of this decision making process including those of international oil companies and the organisational culture of the qatari gas industry the proposed book utilises a case study design named the case of the qatari gas industry the author employs a triangulation of data collection techniques to access empirical data analysing official documents and semi structured interviews a sample of the interview questions are included in an appendix to the proposed books in line with the qualitative nature of this proposed book a thematic analysis is adopted to interpret data based on dunning s eclectic paradigm at the micro level and giddens structuration theory at the macro level in doing so this book connects theory with practice by investigating the preference for joint venture agreements in the case of the qatari industry by the combined application of one of the most effective frameworks for explaining foreign direct investment named dunning s eclectic paradigm along with the most complex sociological framework that offers a rich definition of organisational culture named giddens structuration theory audience could include academics professionals and graduate and senior undergraduate students

when profit from the core was published in 2001 it became an international bestseller helping hundreds of companies find their way back to profitable growth after the bursting of the internet bubble the 2007 global financial meltdown reaffirmed the perils of pursuing heady growth through untested strategies as firms in industries from finance to retailing to automobiles strayed too far from their core businesses and suffered the consequences in this updated edition of profit from the core authors chris zook and james allen show that a renewed focus on the core is more critical than ever as firms seek to rebuild their competitive advantage coming out of the downturn and that a strong core will be the foundation for successful expansion as the economy recovers based on more than ten years of bain company research and analysis and fresh examples from firms responding to the current downturn the book outlines what today s executives and managers need to do now to revitalize their core identify the next wave of profitable growth and build on it successfully zook and allen explain how companies can develop a strong well defined core and use it to establish a leadership position follow the golden rule of strategy discourage competitors from investing in your core assess whether your core is operating at its full potential uncover hidden assets in your core that provide the seeds for new growth find a repeatable formula to apply core business strengths in adjacent markets

building on powerful and proven ideas to meet today s formidable business challenges profit from the core is the back to basics strategy field guide no manager should be without

in solving social dilemmas roger congleton provides an explanation for the rise of prosperous commercial societies congleton argues that an endless series of social economic and political dilemmas have to be solved or ameliorated to sustain social and economic progress and suggests that the most plausible solutions involve internalized rules of conduct previous foundational texts suggest that institutions often emerge to address social dilemmas but congleton focuses on a solution that is arguably prior to formal institutions the internalization of principles and rules of conduct that directly affect individual behavior and group outcomes

the united states presents the greatest source of global geo political violence and instability guided by the radical political economy tradition this book offers an analysis of the usa s historical impulse to weaponize communication technologies scott timcke explores the foundations of this impulse and how the militarization of digital society creates structural injustices and social inequalities he analyses how new digital communication technologies support american paramountcy and conditions for worldwide capital accumulation identifying selected features of contemporary american society capital state empire undertakes a materialist critique of this digital society and of the new american way of war at the same time it demonstrates how the american security state represses activists such as black lives matter who resist this emerging security leviathan the book also critiques the digital positivism behind the algorithmic regulation used to control labour and further diminish prospects for human flourishing for the 99 capital state empire contributes to a broader understanding of the dynamics of global capitalism and political power in the early 21st century
